PANEM KARTHIK

Bengaluru, KA | +91 7569408386 | panemkarthik0925@gmail.com | panemkarthik09.netlify.app | github.com/panemkarthik09

PROFESSIONAL SUMMARY

Full-Stack Developer (MERN Stack) and Computer Science graduate (B.Tech, 2025) with hands-on experience building and deploying web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in JavaScript (ES6+), REST API design, CRUD operations, admin authentication, SQL and relational data modeling, debugging, and software testing. Proficient with Git/GitHub and deployment on Vercel and Render, with a focus on clean, maintainable code and clear technical documentation.

EDUCATION

B.Tech, Computer Science & Engineering

Siddharth Institute of Engineering & Technology, Puttur | 2021–2025

XII (MPC), Gowtham Junior College, Andhra Pradesh | 2019–2021

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3
- Frontend: React.js, React Router, React Hooks, Responsive UI Design
- Backend & APIs: Node.js, Express.js, REST API Design & Integration, JSON Data Flows, HTTP Request/Response Handling
- Databases: MongoDB, SQL, Relational Data Modeling, Query Validation
- Tools & Deployment: Git, GitHub, Vite, Vercel, Render
- Core Concepts: Object-Oriented Programming (OOP), Design Patterns, Data Structures, Debugging & Root-Cause Analysis

PROJECT EXPERIENCE

StudentHub — Student Management System

MongoDB, Express.js, React.js, Node.js, Vite, Git, GitHub, Vercel, Render | GitHub: github.com/panemkarthik0925-blip/StudentHub

- Developed a full-stack student management web application using MongoDB, Express.js, React.js, and Node.js.
- Implemented admin login and student record management functionality.
- Built RESTful APIs to perform CRUD operations (Create, Read, Update, Delete) on student records.
- Integrated MongoDB for secure and persistent storage of student information.
- Connected the React frontend with the Node.js and Express.js backend.
- Deployed the frontend on Vercel and the backend on Render.
- Used Git and GitHub for version control and project management.
- Tested the deployed application to verify authentication, CRUD operations, and data persistence.

Library Management System — Full-Stack Web Application

React.js, JSON Server, React Router, Hooks, HTML/CSS | GitHub: github.com/panemkarthik0925-blip/library_management

- Designed and integrated REST API endpoints for scalable client-server data exchange, validating GET/POST/DELETE request-response behavior and resolving data-synchronization defects.
- Applied object-oriented and component-based design to build reusable, maintainable React components.
- Led software testing and QA across CRUD workflows (listing, adding, deleting, cart operations) to validate application performance and reliability.
- Performed cross-device and cross-browser testing and debugging, resolving environment-specific defects prior to release.
- Documented recurring defects and technical findings to improve issue reproduction, supportability, and team communication.

Birthday Surprise Website — Frontend Web Application

Live Demo: https://panemkarthik0925-blip.github.io/suprise/

- Developed an interactive and user-friendly birthday surprise website to create a personalized digital celebration experience.
- Designed an attractive and responsive user interface with engaging animations and visual effects.
- Implemented interactive features to make the birthday celebration more creative and memorable.
- Integrated personalized birthday wishes, images, music, and surprise elements.
- Applied frontend development concepts to build an engaging and visually appealing web application.
- Focused on improving user experience through creative design and smooth navigation.

CERTIFICATIONS

- MERN Stack — Edverce, 2026
- Python Programming — Simplilearn, 2023
